

RELIABLE ENERGY SOLUTIONS FOR FARM AND FIELD

Advanced oils, grease and energy products to
power agricultural operations

INDUSTRY-LEADING ENERGY OFFER TO PROTECT ALL YOUR CRITICAL EQUIPMENT

Cenex® offers you an industry-leading lineup of lubricants engineered from the highest-quality ingredients to protect heavy-duty equipment and keep your agricultural operation running smoothly, season after season.

We bring more than lubricant solutions to the table. We bring peace of mind. Our robust portfolio of lubricants are rigorously tested against the toughest standards to meet the relentless demands of heavy-duty equipment in the harshest environments.

We partner with top base oil and additive suppliers, ensuring high-quality lubricants that meet or exceed industry standards. And, as always, our Cenex product experts are ready to help whenever you need them, at the co-op or in the field.

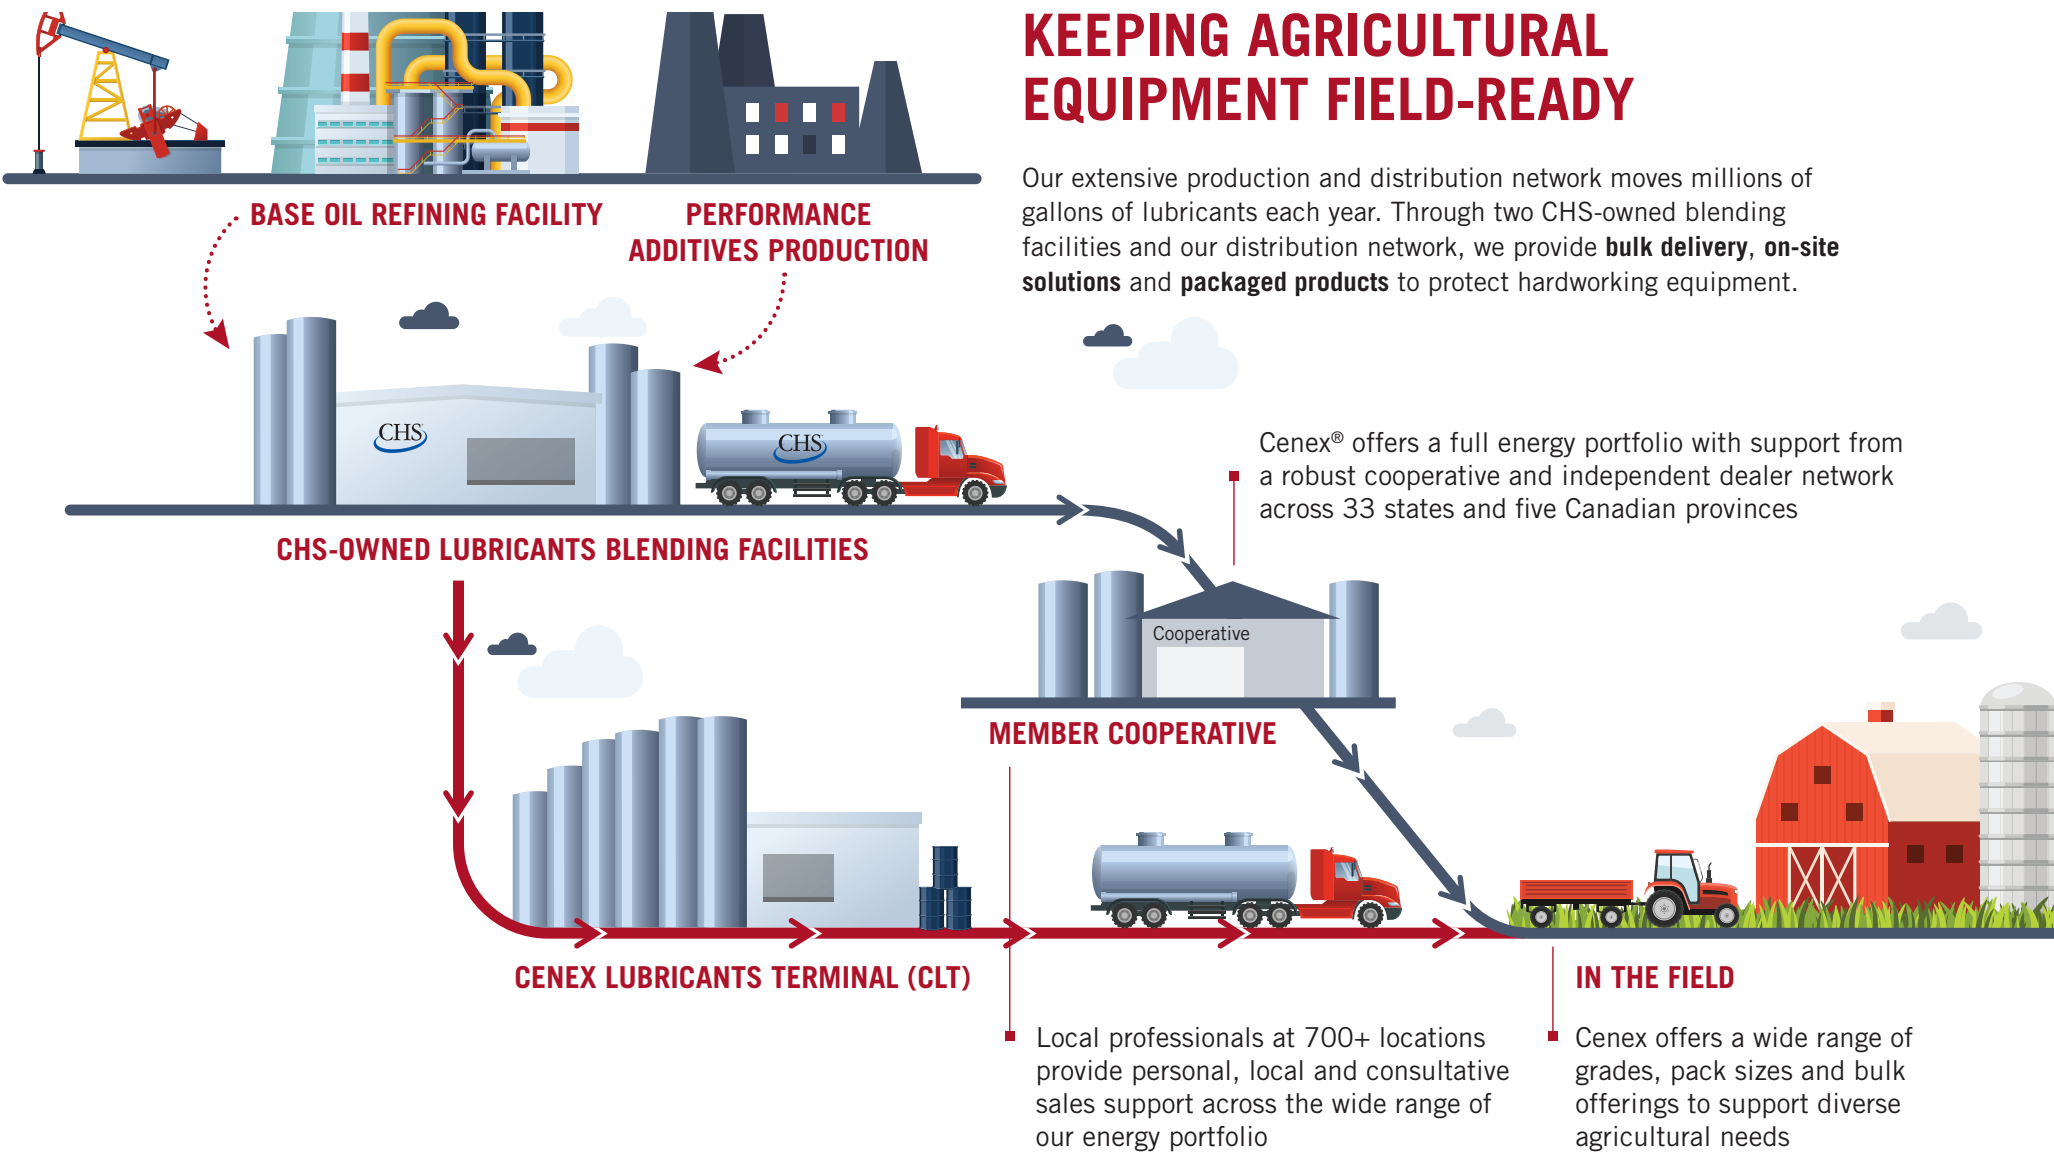

MEETING ALL YOUR ENERGY NEEDS

Our expertise in lubricant blending, petroleum refining and propane supply translates in to a holistic, reliable and safe energy source for our customers. Cenex offers on-road and off-road premium diesel fuels, including winterized formulas, that deliver power, performance and protection in the toughest conditions. We are also a leading supplier of clean, cost-effective propane with year-round reliable delivery to your operation.

We go beyond just energy products. Our team of experts provides tailored equipment solutions to help optimize shop space, improve efficiency and enhance safety for all your energy needs.

CHS DIFFERENTIATORS

#1	The cornerstone energy brand of the nation's largest ag cooperative
90+	Years supplying precisely formulated energy products
#97	On the 2025 Fortune 500 list of largest U.S.-based companies by revenue
17	Cenex lubricant terminals throughout the Midwest
25M	Capable of producing over 25 million gallons of lubricants annually
2	ISO certified lubricant manufacturing and blending plants
3x	All oil lubricants are triple-tested for quality and consistency
2,000+	Miles of pipeline access, two refineries and availability of Cenex fuels at 140+ terminals
920M+	Gallons of Cenex premium diesel fuels distributed to ag, construction and fleet customers
150	Propane terminals in 44 states to help you plan your supply needs

ENERGY EQUIPMENT SOLUTIONS

To meet the demands of your unique operation, we offer an extensive catalog of lubricants, DEF, propane, and petroleum equipment. Choosing the right energy products and proper inventory storage are key factors in maximizing your shop performance. With a vast network of partners and warehouses nationwide, our distributor network can deliver the energy products and equipment you need to keep your operation running smoothly and efficiently.

BULK FUEL TANK

- Convenience of having bulk fuel stored on site
- Avoid costly and less efficient fueling alternatives
- Offers flexible buying options

CHS ENERGY EQUIPMENT SOLUTIONS:
 Work with your local sales representative to order energy equipment.

USED OIL DRAIN

- Easily collects used oil during vehicle maintenance
- Proper disposal of used oil
- Prevents slips and spills
- Enhances safety

RADIANT CEILING HEATER

- Clean burning heat source
- Cost-effective and low-maintenance
- Space-saving solution

DOUBLE-STACK TANKS

- Easily monitor fluid levels
- Distinguish between fluids
- Space-saving, stackable design
- Increase shop organization
- Minimize safety hazards and contamination risks
- Supports bulk product purchasing

PROPANE TANK

- Clean burning energy
- Reliable on-site storage
- Efficient shop and water heating solution

TANK MONITOR

- Trackable data
- Provides consumption history
- Minimal cost
- Critical fill alerts
- Optimize operations
- Peace of mind

BULK DEF TANK

- Maximize shop space
- Significant cost savings
- Safe and secure storage
- Protects fluid from contamination
- Prevents corrosion
- Efficient refilling with pump

PREMIUM DIESEL FUEL SOLUTIONS

Cenex® premium diesel fuels are precisely formulated with a terminally injected additive package for optimal power, performance and protection.

- Improve engine performance with a total water management system

- Keep engines running cleaner longer with an advanced, aggressive detergency package

- Protect equipment from contaminants with exceptional filterability

- Improve power and fuel efficiency through a more complete fuel burn

40%

More effective at breaking down harmful engine deposits¹

UP TO 75%

Reduced filter blocking²

25%

Lower exhaust cylinder temperature deviations¹

PROPANE SOLUTIONS

CHS Propane is a clean energy solution for all your heating and power needs; combining efficiency, performance and safety.

- On-site propane storage ensures reliable, steady energy supply to your home, farm or shop operations
- Virtually unlimited shelf life that will not degrade over time
- Propane and renewable propane lower carbon emissions while meeting your energy needs
- Propane's portability makes it ideal for heating remote locations

¹ In comparison to the previous generation of Cenex® premium diesel fuel.

² In comparison to typical #2 diesel.

PROTECT YOUR AGRICULTURAL EQUIPMENT WITH TOUGH, DURABLE LUBRICANTS

When you work sunup to sundown, you need energy solutions that work as hard as you do. Unplanned downtime simply isn't an option. Your equipment must perform when and where you need it—period. Engineered to meet or exceed stringent original equipment manufacturer (OEM) requirements, Cenex® lubricants are formulated with the highest-quality base oils and a uniquely balanced additive system in ISO certified plants, then triple-tested to ensure quality and consistency.

OEM LUBRICANT SPECIFICATIONS

While OEMs may recommend specific lubricant brands (often their own), according to the **Magnuson Moss Act**, as long as you are following OEM standards, regardless of brand, you do not need to use your equipment manufacturer's fluids. Cenex® fluids are designed to meet equipment manufacturer's specifications.

CENEX EQUIPMENT LOOKUP TOOL

Doing some research online? The Cenex Equipment Lookup Tool makes it easy to match agricultural equipment OEM specifications with the appropriate Cenex product. All data is third-party validated to give you confidence in selecting the right products for your equipment. Use this tool to find engine oil, transmission fluid, gear oil, hydraulic fluid and grease for your on-road and off-road equipment.

CENEX TOTAL PROTECTION PLAN® WARRANTY

Our industry-leading coverage helps customers protect their equipment when they use Cenex lubricants and Cenex® Ruby Fieldmaster® premium diesel fuel exclusively.

- Up to 10 years or 10,000 hours of engine and transmission coverage
- Up to 8 years or 8,000 hours on used equipment
- Covers tractors, combines, sprayers, harvesters and more

ENROLL YOUR EQUIPMENT:
cenex.com/tpp

REFINED FUELS SAMPLE KITS

Refined fuels sample kits are an inexpensive way to understand the quality of your fuel and key for proper tank maintenance. Periodic sampling and being proactive helps avoid costly downtime and gives you peace of mind the next time you reach for the nozzle to fill up your equipment.

LUBESCAN® USED OIL ANALYSIS

An oil analysis is a blood test for your engine, giving you a quick read on the health of the entire equipment and an early alert to impending problems. LubeScan® enables you to run a regular oil analysis on any part of your agricultural equipment that relies on lubrication.

BENEFITS:

- Diagnoses the oil's condition
- Helps indicate contamination
- Determines optimal drain intervals
- Helps proactively identify problems
- Performing regular used oil analysis creates a condition baseline for equipment

LubeScan® used oil analysis and refined fuels sample kits
Available to order through your local Cenex sales representative.
